

World Enduro Championship, Riihimaki (Finland)

Second Race 14.06.2009

Nambotin slashing victory in Finland

GAS GAS has obtained the second position with the rider Christophe Nambotin in the second race of the fourth test of the season's World Enduro Championship. After he suffered mechanical failure on the bike yesterday, "Nambo" has achieved the goal with which he came to Finland.

The rider of GAS GAS showed yesterday that he could get on the podium, only a mechanical failure brings its purpose. Today, Christophe Nambotin (GAS GAS EC300) has demonstrated that it retains the strength and the desire to escalate positions and fight for the leadership. With the second place achieved today, "Nambo" remains in third place overall.

In the same way as yesterday, "Nambo" started very fast racing. In the second section, the rider of GAS GAS placed in second position, a position that endured until the end of the race. The first was from the second section to Cervantes (KTM) and third place, also from the second section, for Aro (KTM).

"Like yesterday, today I went too fast and I have been very regular. I am very happy with the whole weekend, and second place today leaves me to a one point of the second place in general. The next weekend in Slovakia will seek to improve my performance and achieve victory" said "Nambo" minutes before getting to the podium.

"We've shown that we are fighting for the lead in front and that is through teamwork that we are doing. Right now we are at a single point of Guillaume and the end of next week to achieve the second position of the general "says Carlos Ferrer, GAS GAS Race Manager.

After this weekend, Nambotin is third position in the overall classification. The next appointment is next weekend in Puchov, Slovakia.

Classification 2^a Race Finland E3: 1st Cervantes (KTM) 1:05:44.30 2nd **NAMBOTIN (GAS GAS) +9.10**
3rd Aro (KTM) +39.08
